| Average of 10 years (2014-2023) | | | 33,0% | 15,0% | 6,2% | 9,2% | 2,6% | 0,8% | 0,6% | 23,6% | 1,3% | 4,8% | 2,7% | 25,6% | 71,7% |

The residence of the visitor is recorded by postal code, and Ljubljana is defined as a separate group (in brackets is the central city of the postal group).

A local visitor is a visitor residing in the municipality of the festival event.

Data for years prior to 2008 are stored in works programme that is not Excel compatible and will be edited later.

Unknown visitors are recorded when we could not determine the visitor's residence during online ticket sales.
