In the hotel we meet three more personalities: wartime chronicler Slavka Kersnik, Dolenjske Toplice teacher and cultural worker Dragotin Gregorec and Slavko Klančičar, poet and great connoisseur of the Kočevski rog on the outskirts of which he also designed the Rožek forest educational trail. Together with our local producers and providers, we prepare breath-taking dishes that are left to the laws of the seasons with the menu. Chef Roberto and his team draw inspiration from our grandmothers' indigenous and forgotten recipes, associate them with herbs and give them modern disguises. We combine quality meals with the best Slovenian wines, among which we prefer to highlight Dolenjska labels. The green thread is the herbs that we collect on the slopes of the Kočevski rog forests, but you can find them on plates, get to know them in experiences or swing with them into a peaceful dream. In the herbal rooms, take a break from everyday worries and prepare for new challenges. Let the scent of fragrant coffee and the royal breakfast we prepare for you every morning wake you up.
